Project Description

- **Project Title:**
  - Social Media Homepage with User Posts and Comments

- **Project Overview:**
  - The project aims to create a social media homepage where users can view posts and comments.
  - It retrieves data from a mock API and displays it dynamically on the webpage.
  - Users can navigate through different sections such as user details, posts, and comments.

- **Explanation of the .js file**

  1. **fetchAndDisplayUsersList Function:**
     - This function is responsible for fetching and displaying the list of users.
     - It contains placeholder code for fetching and displaying the users list.
     - Additionally, it sets up event listeners for user links.
